EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jiawei Huang (Reg. 43,330) on February 27, 2006.

The application has been amended as follows:

In the abstract, delete "comprises" and add - - includes - -, line 1.

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-7 and 8-16, the patentability resides in the third solder mask opening having the limitation "width of said central area being smaller than the width of said first extension area", in combination with all the other claimed limitations of the base claims 1 and 8.

Applicant's argument on page 5 and 6 of the response filed on February 16, 2006, have been carefully reviewed and found persuasive. The art of record, taken alone or in combination, does not fairly teach or suggest all the limitations in the manner as claimed in base claims 1 and 8.

The closest prior art of Huang et al., (US Patent No., 6,521,997), in figure 1, discloses the third mask opening with an elliptical shape with the central width greater

than the width on both side of the opening, which is opposite to the claimed limitation and that of Mencik (US Patent No. 5,163, 605) in figure 4, discloses one large opening with central width greater than the width both the side of the opening, which is opposite to the claimed limitation.

3. Claims 7 and 15, previously withdrawn from consideration as a result of a restriction requirement, are subject to rejoinder as they depend upon claims 1 and 8 respectively and include all the limitation of the allowable subject matter. Claims 7 and 15 are hereby rejoined and fully examined for patentability. As all the claims previously withdrawn from consideration have been rejoined, the restriction requirement as set forth in the office action mailed on October 27, 2005 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claims including all the limitations of an allowable product claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. Drawings filed on February 14, 2006 are accepted by the examiner.

Art Unit: 2841

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
